After a month and a half of studying with Kaplan GRE Exam 2010-2011 Premier with CD-ROM (Kaplan GRE Premier Program (W/CD)) and this Princeton Review book, I took the GRE over the weekend and can say that between the two I was extremely well-prepared. I began with Princeton and reviewed all the material in this book, including the practice tests, and then moved onto Kaplan, subsequently reviewing all the Kaplan material and using the online quizzes and tests as well. Here are my thoughts on the positives and negatives of the Princeton Review Cracking the GRE 2011

(with DVD) book compared to the Kaplan GRE Premiere 2011 book (with CD):Positives:- Analogies, Sentence Completion, and Antonyms: Princeton does a really great job of explaining how these sections work and then telling you exactly how to have the best chance of getting the answers correct. I used to abhor analogies...technically I kind of still do...but Princeton will tell you how to find the best solution when you know both stem words, when you only know one stem word, or when you don't even know either stem word. They teach you how to be an effective test taker no matter how well you know the material in the question, and they do it for all these three sections. For comparison, Kaplan kind of glosses over each of these sections, and does not even attempt to have the same level of helpfulness in preparing you for any situation you run into, as Princeton does.- Practice questions: Princeton gives you generally 9 - 10 practice questions after each section you do, or sometimes up to 20. Answers are sometimes explained and sometimes not, unfortunately.
