Customer Reviews

This is an absolute ripoff. It has nothing at all to do about Abyssinian Cats. It is a very general and pedestrian book on cat care. Abyssinian cats are a very intriguing and wonderful species. But you wouldn't know that from this book. Too bad a book cannot be returned because it took me all but a minute to read. Very disappointing.

Do not let the title of the book fool you! This book provides nothing more than general information for cat owners. The only mention of Abyssinians was in the introduction and it was very basic and poorly written. Do not believe the positive review - this book is NOT about Abyssinians!

I couldn't possibly be more satisfied with the content in this book. My friend and I both own an Abyssinian and we both have noticed the uniqueness in regards to how they behave compared to our other cats. I am glad that I came across this book because it really cleared a lot of things up and now I know what kind of special treatment I need to give to my lovely cat. I will definitely be sharing

this book with my buddy, I am amazed by how much I have learned from this ebook!
