The spiral bound book is perfect for using on the go. The recipes are geared for outdoor cooking, but can easily be used for indoor cooking in your oven. There is some variety, but mostly basic recipes that taste good, are fairly simple, and use basic ingredients. For one beginning to cook with a dutch oven, it's a perfect starter cookbook.

Dutch Oven Cooking is a fantastic recipe book! My husband bought it on a vacation and we really like the book, in fact we have given it several times for gifts and our friends have loved it also! Cooking outdoors is a great way to bring the family together and create great memories.

This cookbook was geared more towards camping whereas I was hoping to utilize it more for my kitchen. It would be a great cookbook for camping although some of the recipes seem to involve

more prep/cooktime than I prefer.

The book is well set up because it gives both the novice DO (Dutch oven) cook and the advanced DO cooks recipes to try. Great photos, too!

I live in an area that has power outages even on sunny windless days-no further comment. I have a Green Egg smoker and use my Dutch Oven on the smoker to prepare meals. The book was recommended to me by my grandson, the boy scout who uses the book when camping-and also in his fireplace during power outages.

I love how this has recipes for beginner, moderate and advanced. It includes everyone. Have enjoyed all that I've tried so far. Thanks Mr. Lewis!

Very helpful book! Great recipes and very good directions! I found a new love of Dutch oven cooking! Thank you!

I got a new Dutch Oven and didn't know what to do with it. This book came to the rescue. I have made several recipes so far and they were all wonderful - easy to follow, tasty, with common ingredients. The Dutch Oven performs spectacularly!
