Flash's Song: How One Small Dog Turned Into One Big Miracle

Synopsis

What if most people have it wrong, and miracles are not the exception but the norm? Flashâ€™s Song is the true account of how one person discovered the secret of miracles. It is a story of the power of laughter, the power of family, and, ultimately, the power of love to get us through life. Freelance writer Kay Pfaltz was living a quiet, simple life with her three beloved dogs when suddenly her life turns upside down. Coming to terms with a failed relationship, she must now take her ailing dachshund, Flash, in for back surgery. But when the vet tells Kay that Flashâ€™s problem is not a disc but in fact a tumor growing on his spine and Flash has, at most, three weeks to live, Kay is devastated. From here begins a journey of self-discovery and recovery that will open Kayâ€™s heart to the greatest miracle of all. Flashâ€™s Song tells the story of amazing canine courage and remission against all odds. It is a ballad of love and redemption, and a moving account of how Flashâ€™s three-week prognosis became five and a half miraculous months of learning, loving, and finally accepting. Written in luminous prose, accompanied by poignant photos, and filled with keen insight into love, faith, and the power of forgiveness, Flashâ€™s Song is not only a heartwarming ode to a little dog, but also a tribute to life and an invitation to cherish every moment of it.

Customer Reviews

Mortality is a sentence passed on all of us, two- and four-footed alike. There are temporary reprieves, but there are no pardons. If we read a book and really like the protagonist, we hope that the sentence won't be carried out while we're watching. We can pretend that time is frozen when we

turn the last page. So let's make it clear right now â " and it's scarcely a spoiler â " that we don't get our wish when we read "Flash's Song: How One Small Dog Turned into One Big Miracle" by Kay Pfaltz. But the subtitle is accurate. Mortality does not preclude miracles. Kay Pfaltz lets us watch them happen. "I don't ever want another dog." Many of us have said that after the death of a much loved dog. That's where Ms. Pfaltz is in her life when the book begins. But she has a sister who knows better than that, which is how, one October day, she finds herself in the parking lot of a Barnes & Noble accepting delivery of a smooth black dachshund, resembling "a large salamander," who had been flown to Virginia from Arizona, where he had been dumped for a car. And, as one of the customers in her shop/café says, "I guess we find love where we can. And love finds us when it's right." Flash joins Ms. Pfaltz in a period of emotional turmoil for her, and, as dogs are wont to do, he makes the turmoil easier to bear, sometimes by just plain love and sometimes by being enough trouble to take her mind off her other concerns. Then, one November day, Flash is rushed to a clinic for back surgery. What was supposed to be normal IVDD turns out, instead, to be an inoperable tumor. And sentence is passed. Flash will live another two weeks. Three at most. And that's where the path to miracles begins.
