A childhood tea party - all little girls have thrown a make believe one, but as adults, reality is at their fingertips. "Pink Princess Tea Parties" is a cookbook filled with simple recipes for light, sweet, and delectable 'tea party' style foods and beverages sure to please a hostess living out their childhood fantasies, as well as their guests (who may or may not be in on the fantasy). Featuring dishes such as Pink Princess Smoothies, Sweetheart Shortbread, and Confetti Meringue Cookies, and full color photos of almost every recipe, "Pink Princess Tea Parties" is highly recommended for community library cookbook collections.

These books have a lot of the cutest, simplest ideas you've ever seen. A couple of the recipes are more just ways to serve something such as ice cream with a decorative flair. At the price, they are well worth it and great activities for you and your little girl.

I like the recipes just fine and the pictures make everything look really good. **HOWEVER**, all the pages are stuck together around the spiral binder. So when I slowly pull them apart, many of the pages are damaged. For that reason, if I were you, I'd think a lot before you buy this book!

Full of fun, unique recipes, with many color photos. I can't wait to start having tea parties!

Holy cow! I wish I had had more time to play with the recipes in this book before my grand-daughter's tea party. Lots of fun, tasty, easy recipes in this book. I'm going to have to have more tea parties!

I am throwing a fairy party for my daughter's third birthday. First I purchased the Fairy Cookbook from the same author. I was disappointed that almost all the recipes were sweet. So, I decided to give this cookbook a try and see if I could find a couple more ideas that were not cupcakes or brownies. It was wonderful! So far beyond my expectations. It has an excellent variety of sweet & savory recipes along with several drink recipes. I am actually going to use far more recipes from this book for my daughter's fairy party than from the Fairy Cookbook. The recipes are simple, elegant, and easy to make. The book itself is beautiful! My 2-year-old daughter likes to just sit and flip through the pages. She thinks it's wonderful. I highly recommend this cookbook. It is so versatile. I can't wait to get the other ones in the series. They are so well done and are a really great price.

Wonderful ideas for parties for your little princess! Add a few cookie/cake pops to the recipe book...and it will be well-rounded. Delightful, fun & whimsical! My (5 yr. old)granddaughter loves it!!! :-D

My girls borrowed this book from the library and then couldn't stand to give it back. All of the recipes we tried come out really well. Love that they are simple and give ways for the kids to participate.
