The Mysterious Benedict Society And The Perilous Journey

Synopsis

The Mysterious Benedict Society is back with a new mission, significantly closer to home. After reuniting for a celebratory scavenger hunt, Reynie, Kate, Sticky, and Constance are forced to go on an unexpected search--a search to find Mr. Benedict. It seems that while he was preparing the kids' adventure, he stepped right into a trap orchestrated by his evil twin Mr. Curtain. With only one week to find a captured Mr. Benedict, the gifted foursome faces their greatest challenge of all--a challenge that will reinforce the reasons they were brought together in the first place and will require them to fight for the very namesake that united them.

I read to my two sons, age 8 and 9 every night. I was looking for something just a little bit different. Typically they like illustrations to flesh out the narrative, like in the Moomintroll books or Here Be Monsters. The Mysterious Benedict Society is not (alas!) profusely illustrated so when we started it they sort of passively lay back in their beds to listen. By about the 4th page they were sitting up and by the end of the first chapter they were draped over my shoulders reading the pages with me. This

book is absolutely captivating for young kids! We would pause while reading to see if we could work out what would happen next or how a knotty problem was overcome; my sons were absorbecd from beginning to end. Children can easily see themselves as the protagonists and they love to try to figure out the puzzles. Mr. Stewart wants you to try to solve the mysteries with his characters and his writing sparkles with wit and humor. I certainly hope he has more childrens' books for us in the future. Highly recommended!

This book caught my eye as I was leaving the library yesterday. I had been continuously studing for days and needed a fictional break. After some odd looks from the librarian (I guess most college students don't check out philosophy books and children's mystery novels at the same time) I went to my car and began to read. To my surprise, I was reluctant to put it down to drive home. This book is so creative, wonderful, and so many other adjectives that I can't think of right now. There was so much in this book that I could identify with, and I found myself wishing that I was 11 again so I wouldn't have been able to read it so quickly. Bravo Mr. Stewart! Reymie, Sticky, Constance, the Great Kate Weather Machine, and Mr. Benedict have become some of my favorite charaters of all time and I can only hope that we might someday have another adventure together. I recommend this book for Gifted Children of any age, for there are truly many special opportunities inside.

The Mysterious Benedict Society, a group of four children created to thwart the plans of the evil genius Ledroptha Curtain, is fresh off their great victory. The "brainswept" are slowly having their memories returned and everything seems like it should be getting back to normal. It should be the perfect happy ending, yet happy endings are rarely so simple...All is not well for the Mysterious Benedict Society. Reymie, still shaken by the previous adventures, finds himself having nightmares of being surrounded by snakes. A conversation with Mr. Benedict did little to ease his growing fears that wickedness is something to be generally expected of people. Kate has been living largely on her own wits for the past six months (Milligan largely off doing secret agent work) and Sticky has had trouble convincing his parents that he should be allowed to go to college. As for three-year-old Constance, she continues to struggle with being a young child genius, while the government refuses to even properly acknowledge her existence so she can be adopted by Mr. Benedict. The group comes together again with the promise of experiencing a great surprise created by Mr. Benedict, but then learns something horrifying. Both Benedict and Number Two have captured by Curtain and his minions -- now going by the name "the Ten Man" -- for the ten different ways they have of torturing people. The only solution may be to follow through with Mr. Benedict's surprise -- an adventure he

planned for them that may now be their only way to save him. So, once again, danger and thrills are promised, but also a great read and satisfying adventure. The book jacket states that the author, Trenton Lee Stewart, is a graduate of the Iowa Writer's Workshop. If his works are any indication, then they may just have something special there. The jacket also offers a review comparing the style to that of Lemony Snicket -- but I never could quite bring myself to fully enjoy Snicket's mode of writing. This book, however, has been the most anticipated for me since "Harry Potter and the Deathly Hallows" and I'm delighted to say that it satisfies. Pick up a copy for yourself and find out what adventures are in store for this intrepid quartet.

I just loved this book. From start to finish it was flat out great. The characters were all interesting and deep (as opposed to superficial cliches), and the plot had some clever twists and neat puzzles. It was fun solving those puzzles along with the characters, too. So if you're looking for a fun read that's not about magic and dragons (as way too many kids books today are), I highly recommend *The Mysterious Benedict Society*! I can't wait for the sequel.

The first reviewer, Toria Leigh, said it all. This is a very good read! The only change needed is the listed reading level. Being a senior citizen and having read thousands of books, I feel qualified to say that the reading level should be 9 to 99 rather than 9 to 12. Good job, Mr. Stewart! Your children's book is superior to most of the "adult" fiction on the market!
