Customer Reviews

I must say that Storey Publishing REALLY knows how to put out great cookbooks. Here's my newest favorite by Sherri Brooks Vinton called, *Put 'em Up!: A Comprehensive Home Preserving Guide for the Creative Cook, from Drying and Freezing to Canning and Pickling*. For the past year, I've been gathering all the information I can get my hands on about preserving foods. I've spent hours talking with veteran canners (older & wiser women), researching techniques, comparing recipes, and finding the best sources for fresh produce. It's been a sweet high, I must say, to put up delicious tasting, locally grown, fruits and vegetables, knowing full well my family will be enjoying Summer's treats long after the plants are spent and the garden beds lie dormant. Learning to preserve and actually putting up different foods is not a hobby for me. It's a new life choice. Some of you may already know that I stopped buying products containing high fructose corn syrup. Boy. That

decision right there takes 75% percent off the grocery list. Well, some of the first items we missed eating were red plum jam and bread-and-butter pickles. I didn't want to live without those foods, so I had no choice but to make them on my own. I don't think it's an coincidence that my new lifestyle choice and this new book have come together at the right time. When Storey Publishing gave me this book to review, I took it as a sign that I was on the right track in my thinking. **HERE'S WHAT I ENJOY MOST ABOUT PUT 'EM UP!** * Easy to read format throughout the book. * Thorough information on the techniques of food preparation and food preservation methods.
