# Stoners' Delight: Space Cakes, Pot Brownies, And Other Tasty Cannabis Creations

## Synopsis

Alice B. Toklas could have learned a thing or two from this cannabis cookbook of delicious marijuana munchies! From a breakfast of Space Muffins to Cannabis Cupcakes with lunch to after-dinner Hash Brownies, you'll fill your day with stoner snacks, plus teas, hot chocolate, and cocktails that are easy-to-make and fun to share. Cooking with cannabis is a hassle-free way to enjoy weed for anyone who wants to avoid the health issues and stigma of smoking (calling all medical marijuana users!) or just plain can't roll a joint. A special section covers the different forms of cannabis, and explains how to adapt each recipe to your particular pot, so you can make sure a little goes a long way. And for days when you want to stay straight, these recipes are so downright yummy you will still feel happy, even without the buzz.

## Customer Reviews

This book is really cool and laid out well with lots of great recipes. The only drawback is that most recipes call for "hash" instead of the more accessible "marijuana" so you'll have to make adjustments for that. Besides that it's a wonderful addition to any 420 cooks collection.

It's a fun read and contains some pretty good, although mostly basic, recipes. But like others have stated, they do call for hash which isn't always readily available. It's easy enough to sub regular material with a little research, however. If nothing else, it's enjoyable for the reading and some nice recipes, but it's not what I would consider a serious "cooking with weed" book.

As a girl who enjoys both kinds of baking, I finally had the chance to use this book! I made not one, but two different types of cookies and they came out great! Definitely one of the better edibles I've had; definitely the best edibles I've ever made. Just a delightful cookbook.

When i recived it I thought it was going to learn recipes to cook with cannabis but all the recipes are made with specific kinds of hash only not found in USA

Gave to a friend we call "the mad professor"....he loved it...I only wish it were a bigger book, I thought the photo depicted it as a coffee table size book, when in fact it was much smaller...(like half the size of a magazine). But, it was chock full of interesting recipes. Made for lots of laughs!

This was a fun little book with some great looking recipes. Can't wait to try them but need to figure out how to get hash oil first, as most all recipes use this.

Again, thought this would be a helpful edible cookbook. It reminds me of back in the 60's, a stoned hippy talking about cooking. Not worth the buy.

Cant because I cant get the HASH that you are supposed to use....but nontheless it is a cute little coffee-table book that is a conversation piece, no doubt and the receipes all look so good!!!
