## Customer Reviews

If you are looking for traditional Greek food, look no further. This is by far the best cook book out there for classic Greek food. Yes, the binding absolutely sucks. We've gone through 4 copies in the last 15 years, but I always search it out again. I'll add, my husband is Greek, raised in Greece, and cooks amazing food learned from his father and aunts. He loves this book too.

This book is in constant use ssince I first bought it in the early 1970's. It is Greek food at its simplest and best and it was the closest thing I could find to my mother-in-law's cooking. Note, for example, that pepper and celery are not customary additions to recipes and condiments are rarely mixed, allowing for the original flavour of each ingredient to ring true. Many friends have taken this little book home with them to all corners of the globe. It has been published in many languages, including

Japanese! Alas the publisher no longer exists and it is almost impossible to find this little gem anymore in Greece. Get it here today! Lucy Krystallis

I have no problem with the cookbook, the recipes are some of the best. I actually made this purchase to replace an old original copy that is falling apart. So why was I disappointed? The book I purchased was a photocopy of the original recipe book. The pages were crooked, and some of the vital information such as recipe quantities and instructions were cut-off by bad copying. My Mother also purchased a copy and it was in the same condition. I will keep the book and make the correction, since I have an old copy. However, I will never purchase another book from the vendor who sold me the book.

This is my favorite Greek cookbook. I have purchased many over the years to give as gifts. Unfortunately, it is out of print now, but I was lucky to find several used copies on . My only question would be - Why did they ship each copy separately, as I purchased them from the same vendor? That being said, they all arrived separately, but on time.

I have had this book previously and find it to be the most accurate for Greek cooking as I have lived in Greece for seventeen years and know delicious Greek food. This book will give you just that.....DELICIOUS Greek food. Enjoy!

Greece in Print the supplier of this book were fantastic to deal with, delivery arrived two weeks before it was due. Best Greek cook book ever written. The receipes are easy to follow, guarantee to find all ingredients. It has inspired be to be a better cook.

Book was in excellent condition. Can't wait to check out the recipes. I know I'll have to tweak them but this book was given to my ex sister-in-law by her mother, who is Greek. Good enough for her, good enough for me!! Time to cook!

I bought this book on a trip to Greece several years ago and being Greek, I found it to be the most accurate Greek cookbook I have EVER come across. Most Greek cookbooks are modified to American tastes and are quite fancy, but don't let this little paperback book fool you. I use it religiously!! All of my friends have either borrowed it or asked where they could get a copy. It's my "bible" when it comes to cooking Greek food. I would recommend it to anyone who wants a REAL

taste of Greece!!!
