Customer Reviews

It is interesting and educational but not fast paced. Good for breathe of coverage. For that reason I recommend it.

This course provides a remarkably in depth and yet easily understood introduction and survey of the vast topic of wine. I would recommend it to anyone. However, be warned that the course urges you to buy a LOT of wines to taste along the way. As a result, it would be good to watch with friends who will share the costs.

The presenter is a little dry, but she covers a lot of information about wine, wine tasting and the regions. Well worth the money.

It was a great course... I learned a lot, very informative, and touches on different aspects...

It's so interesting, I can't sleep at night!

Great item!!!

Great guide!

Very good.
