Customer Reviews

This slender, stapled booklet appears to be the "manual" that came with a wok. There are a few useful tips, and a couple of recipes that I am going to try. I bought it used, with shipping being significantly more than the price I paid. If I had known what it was, I would not have purchased this booklet. You might find it useful if you are completely clueless about Chinese cooking in general and woks in particular. I can't say it was misrepresented; however, I am still looking for a decent wok cookbook for a non-expert.
